

BRAIN INTEGRATION PROGRAMME

We are now open for the next intake of our popular Brain Gym® Programme: **Brain Integration**, starting 6 July 2017!

Does your child struggle with focusing in class? Or does he/she lack self-confidence in reading, writing, comprehension or analytical skills? Look no further!

Different from tuition that is focused on just teaching educational content, our Brain Gym® Programmes aim to unlock your child's potential and equip him/her with critical skills so he/she can learn better and more easily in order to excel in school and in life.

Studies have proven that performing specific Brain Gym® movements result in significant improvements in brain function and learning abilities. These include:

- Focus
- Hand-eye coordination
- Self-confidence
- Organisation
- Reading and writing abilities
- Spatial awareness
- Emotions
- Interactions with others
- Creativity
- And many more!

Not only will these movements help your child improve his learning abilities, they are fun and interactive too!
